THE PAYNE TARIFF

A Comparison of the Rates of the Dingley Law With the

NEW REVENUE MEASURE

Necessaries of Life and Raw Materials Not Essentially Lower—The Free List Contains Works of Art.

The duties, ad valorem and specific, on the following articles illustrate the essential differences in the Dingley tariff and the recently enacted Payne Law:

Necessaries of Life
Castile soap, lb., 1 1/4c; 1 1/4c.
Common crockery, 25 p. c.; 25 p. c.
Glass jars, per lb., 1c; 1c.
Window glass, per lb., 1 1/2c to 4 1/2c; 1 1/2c to 4 1/4c.
Scissors, doz., 15c and 15 p. c. to 75c and 25 p. c.
Table cutlery, each, 16c; 14c.
Cut nails, lb., 6-10c; 4-10c.
Wire nails, lb., 1/2c to 1c; 4-10c to 1/2c.
Needles, sewing and knitting, per thousand; \$1 and 25 p. c.; \$1 and 25 p. c.
Crochet needles, 25 p. c.; 25 p. c.

Wood
Rough lumber, per 1,000 ft., \$1.50; \$1.25.
Sawed boards of white wood, planks, etc., per 1,000 ft. board measure, \$1; 50c.
Other sawed wood, per 1,000 ft. board measure, \$2; 15 p. c.
Clapboards, per 1,000, \$1.50; \$1.25.
Fence posts, 10 p. c.; free.
Shingles, per 1,000, 30c; 35c.
Chair cane or reeds, 10 p. c.; 10 p. c.
House or cabinet furniture of wood, 35 p. c.; 35 p. c.

Sugar
Sugar not above No. 16 Dutch standard, per lb., 95-100c; 95-100c.
Sugar above No. 16 Dutch standard, per lb., 1 95-100c; 1 90-100c.
Molasses testing from 40 to 56 deg., per gal., 3c; 3c.
Molasses above 56 deg., 6c; 6c.
Maple syrup and maple sugar, per lb., 4c; 4c.

Agricultural Products
Cattle less than 1 yr. old, per head, \$2; \$2.
Other cattle, val. under \$14, per head, \$3.75; \$3.75.
Over \$14 per head, 27 1/2 p. c.; 27 1/2 p. c.
Swine, per head, \$1.50; \$1.50.
Horses and mules val. at \$150 or less, per head, \$30; \$30.
Over that value, 25 p. c.; 25 p. c.
Sheep, per head, \$1.50; \$1.50.

Breadstuffs
Barley, per bu., 30c; 30c.
Corn, per bu., 15c; 15c.
Oats, per bu., 15c; 15c.
Oatmeal and rolled oats, per lb., 1c; 1c.
Rice, cleaned, per lb., 2c; 2c.
Rye, per bu., 10c; 10c.
Wheat, per bu., 25c; 25c.
Wheat flour, 25 p. c.; 25 p. c.
Butter and substitutes, per lb., 6c; 6c.
Cheese, per lb., 6c; 6c.
Milk, per gal., 2c; 2c.
Beans, per bu., 45c; 45c.
Eggs, per doz., 5c; 5c.
Hay, per ton, \$4; \$4.
Honey, per gal., 20c; 20c.
Hops, per lb., 12c; 16c.
Onions, per bu., 40c; 40c.
Peas (green), per bu., 40c; 25c.
Peas (dried), per bu., 30c; 25c.
Potatoes, per bu., 25c; 25c.
Castor beans, per bu. of 50 lbs., 25c; 25c.
Flaxseed or linseed, per bu., 25c; 25c.
Straw, per ton, \$1.50; \$1.50.
Vegetables in natural state, 25 p. c.; 25 p. c.

Fish
Fish, dried, salted, smoked, pickled, frozen, per lb., 1/4c; 1/4c.
Mackerel, halibut or salmon, fresh, salted or pickled, per lb., 1c; 1c.
Fruits and Nuts
Apples, peaches and other small fruits, per bu., 25c; 25c.
The same, dried, per lb., 2c; 2c.
Berries, per qt., 1c; 1c.
Chocolate and cocoa, per lb., 2 1/2c; 2 1/2c to 50 p. c.
Salt, per 100 lbs., 12c; 11c.
Salt in bulk, 8c; 7c.
Starch, per lb., 2c; 1 1/2c.
Vinegar, per gal., 7 1/2c; 7 1/2c.

Cotton
Cotton thread and carded yarn up to and including No. 15, per lb., 2c; 2 1/2c.
Cotton from No. 15 to No. 30, per lb., increase per number, 1-5c; 1-16c.
Cotton, exceeding No. 30, per lb., increase per No., 1/4c; 1-5c.
Cotton thread, colored, up to and including No. 20, per lb., 6c; 6c.
Cotton thread, colored, No. 20 to No. 80, increase per No., 1/4c; 1/4c.
Above 80, increase per No., 3-10c; 3-10c.
Spool thread of cotton, including crochet, darning and embroidery, per doz. spools, 6c; 6c.
Cotton cloth, unbleached, less

FOR FLETCHER'S

CASTORIA

Pleasant Lawn Fete

Saturday evening, August 7, Misses

Martha and Alma Clapper tendered

a lawn fete in honor of their

friends, Miss Margaret Evans and

Miss Mildred Herschberger, of Bedford,

the following persons being present:

Misses Margaret Evans, Mildred

Silk (carded or combed), lb., 40c;

35 p. c.

Cork bark, lb., 8c; 8c.

Feathers and downs (crude), 15

p. c.; 20 p. c.

Opium (crude), lb., \$1; \$1.50.

Plaster, rock or gypsum, crude,

ton, 50c; 30c.

Beauverite, ton, \$1; \$1.

Fuller's earth, ton, \$1.50; \$1.50.

Argentine, 25 p. c.; 25 p. c.

Metallic mineral substances in

crude state, not specially provided

for, 20 p. c.; 20 p. c.

Timber, hewn, sided or squared

(not less than 8 in. sq.), and round

timber, c. f., 1c; 1/2 p. c.

Wood pulp, mechanically ground,

lb., 1-12c; 1/2c.

Wood pulp, chemical, lb., 1-6c;

1-16 to 1/4c.

Hides, 15 p. c.; free.

Leather

Belting and sole leather, etc., 20

p. c.; 15 p. c.

Sheepskins, dressed, per doz.,

\$1.50; 15 p. c.

Goatskins, dressed, per doz., \$2;

15 p. c.

Patent and japanned leather, per

lb., 30c and 20 p. c.; 27 and 15 p. c.

Same, weighing over 25 lbs., per

doz., per lb., 20c and 10 p. c.; 20c

and 10 p. c.

Gloves

Women's or children's glove finish,

per doz. prs., \$1.75 to \$2.75; \$1.25

to \$2.75.

Men's gloves, same finish, per doz.

prs., \$3; \$3.

Women's or children's, lamb or

sheep, per doz. prs., \$2.50 to \$4.50;

\$2.50 to \$4.50.

Men's, same kind, per doz. prs.,

\$4; \$4.

Women's or children's goat or other

leather, per doz. prs., \$3 to \$4.75;

\$3 to \$4.75.

Men's goat or other leather, per

doz. prs., \$4; \$4.

Manufactures of plaster of paris,

30 p. c.; 35 p. c.

Manufactures of ivory, gelatin,

shell, etc., 35 p. c.; 35 p. c.

Mating made of cocoa fiber, per

sq. yd., 6c; 6c.

Lead pencils, per gross, 45c and

25 p. c.; 45c and 25 p. c.

Slate pencils, per 100, 3c; 3c.

Photographic films, 25 p. c.; 25

p. c.

Pipes and smokers' articles, val. at

not more than 40c per gross, taxed

per gross, 15c; 15c.

The Free List

The new free list of the Payne bill

includes the following articles:

Petroleum, crude and refined, was

continued on the free list, though

considerable opposition to this pro-

cedure developed.

Hides were put on the list after

prolonged and bitter controversies.

Senator Aldrich and various of the

older members of the upper house led

the campaign against free hides. The

Dingley bill placed a duty of 15 per

cent. ad valorem on hides.

The new free list, while very similar

to that of the Dingley bill, contains

the following articles that,

among others, were not on the Dingley

list:

Hides, fence posts, sulphate of am-

monia, platinum combinations with

palladium, osmium and rhodium,

kindling wood, radium, works of art

—paintings, pastels, etchings and

sculptures that have been in existence

more than twenty years prior to

date of importation; other works

of art, of bronze, marble, terra cotta,

pottery, porcelain and antiques produced

more than 100 years prior to date of

importation.

For indigestion and all stomach

trouble take Foley's Orino Laxative

A MUTUAL SURPRISE.

The Meeting Between an Ambitious

Hunter and His First Grizzly.

In "Sketches of Life in the Golden

State" Colonel Albert S. Evans tells

an amusing anecdote of an ambitious

hunter who met his first grizzly bear

—in procession. The incident occurred

in the woods near the site of the present

town of Monterey.

The hunter sat down to rest in the

shade of a tree and unwittingly went

to sleep. When he woke it was near

sunset and he sat up, rubbing his

eyes and contemplating a return to his

hotel, several miles distant.

Just then a rustling and crackling

noise from a clump of chaparral about

100 yards away attracted his attention.

Out walked a grizzly bear, a

Making Money On the Farm

VIII.—Potato Culture

By C. V. GREGORY,
Author of "Home Course in Modern Agriculture"

Copyright, 1909, by American Press Association

WHETHER grown for market or for home use only, it is important that the potato crop be made to yield as much as possible. With the right kind of care yields of 200 to 500 bushels to the acre can be obtained, making this one of the most profitable crops that can be grown. Even with the most careless treatment the tuber frequently yields most generously.

The potato is very particular in its soil requirements. A rich sandy loam is the best soil. Not all farms have such a soil, but almost any soil can be so prepared as to make a fairly good potato patch. Two things are essential, mellowness and plenty of moisture. Clay is too heavy, and sand dries out too rapidly. Soils which contain too much clay or too much sand can be greatly improved for the production of potatoes by the addition of humus. The ideal way to prepare a field for potatoes is to seed it to clover for at least a year, manure it heavily, plow it up and plant it to corn. In the fall the corn can be cut for silage or fodder, so that it can be plowed before winter. The plowing should be fairly deep. Two diskings and a harrowing or two the following spring make an ideal seed bed for potatoes.

Potatoes are not raised from seed, but from the swollen underground stems that we call tubers or potatoes. Any piece of a tuber that contains an "eye" will grow and produce more of its kind. A potato vine grown from a piece of a tuber is really not a new plant, but part of the old one. If outside conditions are the same the plant will be the same and produce the same kind of a crop. There is much less tendency to vary in plants propagated in this way than in those raised from seed.

Large Versus Small Potatoes.

Because of the fact that the potato is not a seed it has been claimed that small potatoes would produce just as good crops as large ones. Growers often sort out and plant the tubers that are too small for market. The outcome of four or five years of such selection almost always means a decreased yield. If the potatoes planted were small only because they did not have a chance to develop they would produce nearly as good results as larger ones from the same hill. If, however, they were small because they came from a hill of tubers all of which were naturally small they would produce mostly small potatoes like themselves. For this reason it is not safe to plant the small tubers. Another important point is that there is not enough food material in a small potato to give the sprout the kind of a start that it needs to produce a good yield. It is the stocky, vigorous hills that are full of large potatoes when digging time comes. The start the plant gets while it is first making its way to the surface of the ground largely determines the vigor with which it will continue to grow throughout the season.

The experience of most potato growers is that it is best to plant medium sized tubers, about the size of a hen's egg or larger, cutting each one into four pieces. In experiments that were

FIG. XV.—WELL SHAPED SEED POTATO.

conducted along this line quarters gave a yield of seven bushels to the acre more than two eye pieces and fifteen bushels more than one eye piece.

The seed potatoes should be kept in a dark place until planting time to keep them from sprouting as much as possible. New sprouts will grow if the old ones are broken off, but they will not be as strong. If the seed is at all scabby it should be treated before planting. This is done by soaking the tubers for two hours in a solution of one pound of formalin to forty gallons of water. Afterward the potatoes should be spread out to dry and then cut. The cutting should not be done until just before planting, as otherwise they will shrivel and lose some of their vitality. The plan of getting the seed potatoes cut several weeks or even days before planting is not to be commended. Even if the seed thus prepared is kept in a dark cellar the starchy part of the tuber is certain to lose much of its freshness, and the vitality of the seed may be impaired.

Planting.

Early potatoes should be planted as soon as the ground can be worked. The later varieties, which comprise the bulk of the crop, should be planted about corn planting time or a little later. In the corn belt it is most convenient to mark off the rows with the corn planter. Where land is high and it is desired to work it to its fullest capacity the rows may be as close as

three feet. Where ten or more acres are grown a potato planter will soon pay for itself. Where the acreage is smaller than this two or three neighbors can often combine to purchase such a machine.

Where hand planting is practiced the rows should be opened with a stirring plow to a depth of four to six inches. The practice of dropping the tubers in a cultivator track and covering them lightly is responsible for many of the low yields. Potatoes send up a strong sprout that is able to penetrate six inches of soil easily, and the roots need to be well down in the moist earth. After the tubers are dropped the stirring plow may again be brought into use to cover them, or a disk cultivator may be used. The main thing is to get them covered deeply. After covering two or three harrowings should be given to level the ground and kill any sprouting weeds.

The cut tubers should be dropped from twelve to sixteen inches apart, one in a place. The amount of seed to use per acre will depend on the price. If seed potatoes are not too expensive it pays to be liberal with them. Where medium sized potatoes are cut into quarters and dropped every fifteen inches in rows three and one-half feet apart twelve to fifteen bushels per acre will be needed.

On western farms, where land is cheap and labor scarce, potatoes are often planted in rows both ways. This can be readily done by running a planter wire across the field and dropping a piece of potato at each button on the wire. The wire is moved at each end as in planting corn. When planted in this way half a tuber instead of a quarter should be dropped in a place. Such a plan will not give

FIG. XVI.—POTATOES LEFT IN PILE.

as good a yield as drilling, provided the drilled potatoes are kept free from weeds. The checked potatoes can be cultivated both ways and kept clean with but little hand labor and will yield more than a weedy patch planted twice as thick. The feasibility of the plan depends entirely upon the relative cost of land and labor.

A good harrowing after the plants are two or three inches high will destroy many weeds and loosen the dirt in the row. Deep planted potatoes are not injured by such a harrowing. A few days after this the cultivator should be started and the field cultivated once a week or oftener until the blossoms appear. It pays to hoe or pull any weeds that come up in the rows. No one thing will reduce the yield of potatoes more than weeds. The ground should be left nearly level at the last cultivation. Deep planting makes hilling unnecessary.

Spraying For Insects and Diseases.

The potato beetle is the one serious insect enemy of the potato crop. The most prevalent disease other than scab is blight. This affects the leaves, causing them to turn black and curl up. Both blight and beetles can be readily controlled by spraying with Bordeaux paris green mixture. This is made as follows: Four pounds copper sulphate, four pounds fresh lime, four ounces paris green and fifty gallons of water. Dissolve the copper sulphate in twenty-five gallons of the water and the lime in the rest. Then pour the two solutions together. Make the paris green into a paste with a little water and stir it into the mixture. It pays to have a good hand sprayer to apply this solution or a power machine if many acres are grown. A hand sprayer can be bought for \$5 or \$6. If equipped with two nozzles so as to take two rows at once it will not take more than an hour to go over an acre. The entire expense, including the labor, will be repaid several times over by the increase in yield. Three or four sprayings will be sufficient, starting about the time the plants are six inches high and continuing at intervals of a week or ten days until they are in bloom.

Digging the Crop.

Where a large acreage of potatoes is grown or where several neighbors each raise a few acres every year, a digger is a paying investment. It leaves the tubers on top of the ground in good shape to be picked up and gets practically all of them. Where only a few are grown they can be forked out, but this is a slow job. The most common practice is to plow them out. By picking them up after the plow, then harrowing twice and picking up after each harrowing, few will be left. If the field is so located that the hogs can be turned in on it, they get all that were missed. As soon as dug which should be before severe freezing weather, the potatoes should be piled up and covered with straw and dirt. Here they may be left until the ground begins to freeze, when they may be put in the cellar or hauled to market. If the pile is on a well drained place it may be covered with a foot to eighteen inches of straw and as much dirt and safely left till spring. There are many potato growers, especially those of foreign extraction, who never keep their crop in any other way. While the dry indoor method has numerous advantages, such as readiness for use in all weather and convenience of handling, there is much to commend the outdoor storage plan. There are even those who contend that the flavor of the tuber is only to be maintained by storing it in the pit.

Where is Your Hair?

In your comb? Why so? Is not the head a much better place for it? Better keep what is left where it belongs! Ayer's Hair Vigor, new improved formula, quickly stops falling hair. There is not a particle of doubt about it. We speak very positively about this, for we know.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Ayer's

Indeed, the one great leading feature of our new Hair Vigor may well be said to be this—it stops falling hair. Then it goes one step further—it aids nature in restoring the hair and scalp to a healthy condition. Ask for "the new kind."

Made by the J. C. Ayer Co., Lowell, Mass.

ASTRONOMY.

Its Exactness Illustrated by the Discovery of Neptune.

There is perhaps no more striking illustration of the power of scientific method than that relating to the discovery of Neptune in 1846. The planet Uranus, until then the outermost known member of our solar system, refused to follow the path computed for it by mathematical astronomers. With the progress of time the discrepancies between its predicted and observed positions grew constantly larger until in the early eighteenth century the discordance amounted to fully seventy-five seconds of arc. This is a small angle, not more than one-twenty-fifth the angular diameter of our moon, yet a very large angle to refined astronomy, for a discrepancy of two seconds would have been detected with ease. The opinion gradually developed that Uranus was drawn from its natural course by the attractions of an undiscovered planet still farther from the sun than itself. Adams in 1843 and Le Verrier in 1845 independently and each without knowledge of the other's plans attacked the then extremely difficult problem of determining the approximate orbit, mass and position of an undiscovered body whose attractions should produce the perturbations observed. Regrettable and avoidable delays occurred in searching for the planet after Adams' results were communicated to the astronomer royal in October, 1845. Le Verrier's results were communicated to the Berlin observatory in September, 1846, with the request that a search be made. The disturbing planet, later named Neptune, was found on the first evening that it was looked for less than one degree of arc from the position assigned by Le Verrier. If an energetic search had been made in England the year before the planet would have been discovered within two degrees of the position assigned by Adams.—Professor W. W. Campbell in Popular Science Monthly.

Pinesalve, carbolyzed, soothes pain. In any emergency—bruises, cuts, sores, burns, scratches, etc., Pinesalve, carbolyzed, is best. Sold by Ed. D. Heckerman.

Children Cry FOR FLETCHER'S CASTORIA

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulents. They operate easily, tone the stomach, cure constipation.

A Rattlesnake Trap.

Rattlesnakes were the most dangerous wild animals with which the early settlers of New Jersey had to contend. They were very numerous, and their bite, if not treated properly at once, was generally fatal. In "Stories From American History" F. R. Stockton cites an incident which gives an idea of the abundance of the rattlers in the new colony:

In a quarry from which the workmen were engaged in getting out stone for the foundations of Princeton college a wide crack in the rocks was discovered which led downward to a large cavity, and in this cave were found about twenty bushels of rattlesnake bones.

There was no reason to believe that this was a snake cemetery, to which the creatures retired when they supposed they were approaching the end of their days, but it was without doubt a great rattlesnake trap.

The narrow, winding passage leading to it must have been very attractive to a snake seeking retired quarters in which to take its long winter nap. Although the cave at the bottom of the great crack was easy enough to get into, it was so arranged that it was difficult if not impossible for a snake to get out, especially in the spring, when snakes are very thin and weak, having been nourished all winter by their own fat.

Thus year after year the rattlesnakes must have gone down into that cavity without knowing that they could never get out again.

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. E. L. Bowen of Wayne, W. Va., writes: "I was a sufferer from kidney disease so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." It will cure you. Ed. D. Heckerman.

MARCIA'S FREEDOM.

By MARION MANVILLE.
[Copyright, 1909, by Associated Literary Press.]

The announcement came like a thunderbolt out of a clear sky. Marcia Deane had broken her engagement with Jack Kelly.

They had been lovers from childhood, always together, always devoted and absolutely loyal to each other, and now, just a few months before the wedding day, the unexpected happened. The young people were planning a nutting expedition, and Jack had called, as he did every evening, to tell Marcia the details.

"We start from Lawton's at 9, so I will come for you a little earlier. You will be ready?" There was scarcely a question in his voice.

Marcia was always ready. He had finished up that subject, and his thoughts were busy with something else when it dawned on him that Marcia's answer and tone were quite different from what he had expected. She had risen and was speaking rapidly, intensely.

"No, I shall not be ready then or any time again, Jack. I'm not going with you any more, and here's your ring."

She thrust the mute emblem of their past happiness into his hand, stood expectant a moment; then, as he did not speak, she turned from him and walked into the house.

Jack was too dazed to move. How long he sat there he never knew, but at last he went away. The light and happiness had been crushed out of his life at one blow.

Fall slipped into winter, and the usual festivities began. Jack Kelly never appeared at them, but he heard of Marcia, first with one man, then with another, the belle of the season. And Marcia enjoyed her freedom. For the first time in her young life she was receiving attention from other admirers than Jack, and she was constantly comparing them with him.

Sam Duncan was splendidly big and handsome, though his eyes lacked the genial twinkle, the tender sympathy of Jack's. Dan Hemly was extravagant, and she was sure it was wrong—not that she could endure a stingy man. Jack was generous, too, but he had some principle about it.

Ted Reynolds fell in love with Marcia at once and insisted on taking her everywhere. He was full of fun, a brilliant talker and an all around good fellow. Marcia liked him immensely until Christmas day. Then she found his card at the bottom of the basket of roses she had thought came from Jack, and after that there was a bitterness in her heart toward the man who had dared to send what she expected from her neglected lover.

As soon as spring came Marcia was seen constantly in Harry Lawton's automobile. Rumor had already engaged her to a dozen different men, and now it settled on Lawton as an absolute certainty. Marcia held her peace.

Now and then, when Marcia had an occasional glimpse of Jack's face, with the deep lines around the lips that of old were always smiling and tender for her, she would go home, shut herself in her room and cry herself to sleep.

"The old stupid! Why doesn't he come to see me?" she would say to herself, angry at his unquestioning acceptance of her dismissal.

It was the 1st of June, just a week before Marcia's birthday, which was also to have been her wedding day. All day long she had been puzzling her brain to find a way out of her dilemma. Things had not turned out exactly as she had planned them in the months just gone. She had expected to retain Jack's friendship, to have him call occasionally, but she had never exchanged a word with him since the night she had sent him away. At last, because she could think of no better way, she sent him a note:

Dear Jack—A girl you used to know will be at our house tonight and wishes to see you. Come at 7. MARCIA.

Quite bewildered, unable to guess who the girl might be, Jack obeyed the summons. He found Marcia alone in the parlor. Never had she looked so bewitching to him as she did after the months of separation. She was dressed all in his favorite white, relieved only by a single black red jack rose Jack caught his breath with sudden pain as he realized all that it meant to love her. With irresistible longing he kept her hand and drew her close into his arms.

"Marcia, darling," he murmured, his face against hers, "tell me it isn't true. Say that this lonely winter has been a horrible nightmare and I'm waking now."

"The girl you used to know"—she began.

"Bother the girl! I don't want her. I want you—you!"

She drew away from him a little.

"The girl, Jack, is the one you used to be engaged to."

He caught her in his arms again, and Marcia finished her confession.

"You never asked her why she gave back the ring. You didn't give her a chance to explain that before she became an old married woman she wanted the experience of knowing some one besides the man who had always been her constant attendant. She meant to take a little vacation of a month or two, but you made it so hard she had to wait until—oh, Jack, do you know what a week from today is?"

Jack disengaged one arm long enough to slip a glistening golden circlet on Marcia's finger. Then he answered triumphantly:

"Do I know? Well, I think any man ought to recognize his own wedding day. It's the end of your vacation, young lady!"

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

Are You Satisfied?

If you think you may not be getting all that you ought to get for your money—try us. We give personal attention to every order. We learn just what our customers want and then we see that they get it. That's why our business grows so steadily.

Roses Are of Splendid Quality

and we have a large stock on hand. Also good supply of Carnations and all other stock in season.

JOHN PAUL, Florist,

Both Phones 56 Centre St., Cumberland, Md.
GEORGE O. FARBER, Agent, Bedford, Pa.

TIME IS MONEY

Time and Tide wait for no man and the accurate marking of its flight oftentimes means much money, either lost or gained, by the man who has a watch he can always depend upon. The watches we carry are the makes of men who have been in the business of making watches all their life and their fathers were in the same business before them. In a word, these watches represent the acme of perfection and are built to keep accurate time all the time. They cost a little more than a Waterbury or Ingersoll, but in actual value they are cheaper. In all kinds of cases from \$5 up.

Women Suffer Agonies from Diseased Kidneys

And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid. Do it to-day.

SOLD BY ALL DRUGGISTS.

AT THE RESERVOIR

Friday afternoon of last week about thirty citizens of the town gathered at the Todd reservoir, the town's principal source of water supply, and examined conditions there.

They found more than three times as much water escaping by some means from the reservoir, in which the water was then about eight and one-half feet below the overflow, than is flowing in.

The idea of building an impounding reservoir seemed to be in favor, but it, too, has its objections.

The council has acted wisely in securing the services of a competent engineer who is expected here today, for the opinion of one skilled in that branch of engineering must necessarily carry more weight than the opinion of one who has made no study of that branch.

What we want is water and that in abundance. If an impounding reservoir will gather and hold the leakage, let us have it. "If the sinking of wells will supply the demand when the water level falls to that bench of the reservoir below which there is no leaking, let the holes be bored. If water is leaking through the embankment, which is by no means certain, let the defect be remedied. If the leak is through the slate in the native hill, let it be stopped by some means.

The matter of laying a larger pipe from the Milburn reservoir and thus supplying a greater portion of the town from that source is certainly worthy of consideration.

Whatever the expert opinion may be and whatever the Council may decide to do, let all citizens stand by them.

THE REASONS GIVEN

In the recent discussion of the proposed constitutional amendment permitting the levying of an Income Tax in the Georgia Senate it was argued that states should save to themselves the right to tax incomes and not surrender it to the Federal Government.

The individual states have so far survived without an income tax. This is but an excuse for not acting favorably. Other excuses for opposing it are that it is a "tax on thrift;" "It will strike every farmer;" In reality it is not a tax on thrift any more than it is a tax on idleness, for much of the wealth of our nation is in the hands of idlers who have inherited it and are spending it lavishly on luxuries. Should it tax "thrift" such as is found in Carnegie, Rockefeller, Morgan and other "thrifty" millionaires, they are able to pay it and it is far better that they do so than that it be paid by the wage earner as the bulk of it is today.

The other excuse, that it will "straiten every farmer" is equally flimsy, for such will not be the case unless every income is taxed, which is not likely to be the case, for as was the case in the law passed during

Cleveland's administration, the tax is not likely to be placed upon incomes so small as are enjoyed by farmers unless they till the soil on a very large scale. At what point the tax would start would have to be determined by a future Congress, for the proposed amendment reads as follows:

"The Congress shall have the power to levy and collect taxes on incomes, from whatever source derived, without appointment among the states and without regard to any census enumeration."

Southern Democrats who oppose it because it is put forth by the opposition party are influenced by argument unworthy and irrational, for the Democratic platform of 1908, in language unequivocal declared for an income tax just such as this amendment would make legal beyond a doubt.

There are but two real reasons the enemies of an income tax have for opposing it and these reasons are never set forth. One is that it would tax wealth and not poverty, and the wealthy do not wish to pay it. The other is the fear on the part of protected interests that an income tax would produce such a revenue as would go far toward meeting the government expenses, thus eliminating one excuse for a high tariff which now draws money from the pockets of laborers for the necessities of life while it passes over the fine paintings and statuary that adorn the homes of the wealthy.

"Wealth and Privilege," says the New York World, "wield vast power with Legislatures, but the people have more power if they will use it."

MEETING OF LIQUOR LEAGUE

Representatives of Six Counties Meet in Bedford.

On Wednesday some thirty liquor dealers, representing six counties, met in Bedford to discuss plans to oppose the temperance movement.

An organization known as the Liquor League of Central Pennsylvania, embracing the counties of Bedford, Cambria, Blair, Huntingdon, Mifflin and Fulton, was formed. The following was adopted:

Whereas, It has become self-evident that to preserve our vocations in such a manner that we may pursue them honorably and legally, without fear or favor, the Liquor League of Central Pennsylvania, for the purpose of uniting all local dealers connected with the liquor interests, to protect ourselves against the enactment of unjust or fanatical laws and to urge and procure the repeal of such laws now on the statute books,

Do Resolve, In furtherance of these objects, to pledge our honor mutually to each other, to lay aside our individual preferences and to lend our aid, influence and vote to defeat any and all candidates for offices of public trust who will not give positive and public assurance of their willingness to vote for and urge such just and equitable laws to which we as good citizens and honest merchants are entitled, and further

Resolve to urge upon all dealers throughout the counties to combine together in their various localities and to demand their rights as American citizens.

Railroad Notes

Several railroad contractors made a trip over the line of the Bedford and Hollidaysburg Railroad on Monday. This fact gives rise to the belief that the railroad will be built by contract. The contractors also inspected the big cinder dump at McKees Gap. The Pennsylvania Railroad corps of telegraphers and linemen have about completed their work on the Springfield branch and their special cars will be moved next week to Mount Dallas, Bedford County, where they will enter upon their work of running the telegraph and telephone lines for the new railroad.

Hollidaysburg, Cor.

Council Meeting

At a special meeting of the Town Council last Friday night a permit was granted Mrs. Joseph Garven to erect a garage on lot on West John Street.

The committee on finance was authorized to make a temporary loan.

The water committee in connection with the Secretary was authorized to secure the services of an engineer to investigate concerning the water supply and make plot of proposed new impounding reservoir. The services of Harvey Linton of Altoona have been procured and Mr. Linton is expected to arrive in Bedford today.

HISTORIC BEDFORD

(Continued From First Page.)

men bad enough in those days to figure among the devils in the book of Genesis, and it is an open question whether the whites did not initiate burning at the stake.

Whilst Washington was with the British army, to whom he looked up like his half brother Lawrence, as his possible future career, he went all the way to Boston to argue his rank against a competitor. This competitor, a Captain or Major Dagsworthy, I saw dug up at Dagsborough, Delaware, more than 30 years ago. "What did you find?" I asked the grave digger. "Just one tooth on my shovel, amongst the black dust." Dagsworthy was a Jerseyman and the influence of Jersey was much beyond our knowledge. There was a Jersey settlement west of Bedford several years before the Continental Congress. Boone and Daniel Morgan were Jerseymen. All through these mountains Holland Dutch hunted peltries, having had a muskrat origin in the canals, polders and dikes. Joist Hite, Dutch name, settled the valley of Virginia before Washington located Point Winchester. John Armstrong, who built the Bedford road west, was the father of John Armstrong who wrote the Newburgh letter, married a Livingston, sired the wife of William B. Astor, was Madison's Secretary of War, and ancestor of Julia Ward Howe and the Chantlers. Before the Pennsylvania road to Fort Pitt, Virginia expected no opposition to annexing western Pennsylvania. The Federalist or Berkeley Virginians were Washington's revenue officers about the Monongahela whom Jefferson's factionists mobbed. On their account Edmund Randolph attempted to levy money upon the French minister. Gallatin settled on the Monongahela, thinking it was Virginia.

As soon as I got to Bedford I experienced a great sensation, the whiskey taste of old times, no creosote French fruit spirit, manufactured smoke or sulphuric acid. "Where in the world did this come from?" I asked. "Up by here in the mountains. There's no straight whiskey east. It's all Abraham blend there." So I went into Bedford town and bought several gallons of the same, which I was surprised to find cost \$4 a gallon. The distiller, derived from whiskey insurrection times, was an old man with short gall. wses to suit his square inserted body. "Does whiskey cost more than of old, before reform ruined its quality?" "Yes sir. Coal which cost two cents a bushel now costs five cents. We formerly got it from private proprietors, who have all been driven out by the coal trusts. Rye costs \$1 a bushel and a bushel won't yield much above three gallons. Then you have to manufacture yeast, finally to pay \$1.10 per gallon to the government. My still is near the base of the backbone Allegheny, and I must send over the summit for my coal; four horses will be all day hauling four tons. Then I must send the product to town, 15 miles. There's about 42 gallons in a barrel, which has to be coopered. There's hardly enough profit left to adulterate it."

"Can't you burn wood?"

"No, we can't get anybody to cut it. The Monongahela whiskey is also blended now."

But I was told that the old distiller was rich. The high mountains yield some bark, of which I saw a large tannery at Mann's Choice, and heard that they paid \$9 a cord for bark. In those mountains are many fine bright bay horses, rather short or stubby.

The Bedford Springs Hotel, with 3,000 acres of woodland, large oaks, belongs to Samuel Bancroft of Wilmington, Del., cotton lace manufacturer and big owner in the Broad Top coal railroad. The State of Pennsylvania had put a rolled park road to the Springs from the town and oiled it, so that there is no dust. Mr. Bancroft is a cousin of John Bright of England. Thomas A. Scott and Frank Thompson, presidents of the Pennsylvania Railroad, both came from among those mountains. James G. Blaine's father or grandfather studied law in Bedford. Old Don Cameron, 77 years old, was at Bedford this year, as annually, a lonely man, his wife, who is half his age, pensioned off. She was the niece of John Sherman. "Every old man," says the old woman, "gets paid for marrying a young wife." Jeremiah S. Black, without great desert, holds the chief fame in these parts for his recitatives. James Buchanan was at these Springs every year. His works and fame are being jack-screwed up very late by his rich niece, Harriet Lane. The three products of Pennsylvania in the presidency are Jackson, Polk and Buchanan, all of the Irish race. Ingham and other Pennsylvanians tried to manufacture Calhoun into a President after Jackson's one term. Robert J. Walker, who had moved to Mississippi, manufactured Polk to be rid of Van Buren. At Bedford lived the Congressman, Ogile, who counted Van Buren's silver spoons. At Somerset, beyond the big mountain, Mc-

Kinley laid pipe for Pennsylvania at the home of his unimportant brother, Abner. The chief abuser of General Jackson was Abner Leacock, born at Alexandria, Va., the political predecessor of Quay at Beaver. Faction is still strong in the Irish-German race through these parts.

At Bedford Springs

Bedford Springs is a showy place, a hotel several hundred feet long enclosing a lozenge of ground, between a mountain and a creek, and a gangway of colonnade crossing the lawn to the magnesia spring, against another mountain. To the south are strong blue mountain summits. The highest point in Pennsylvania, Big Bald Knob, 3,000 feet, is a few miles west of Bedford, which owes its location to the easy access from the east, like a battering ram directed against the fortress of the Alleghenies. Having started so early, Bedford has had the latest stops, the Pennsylvania Railroad having exterminated the trunk line which the Vanderbilts built up the Raystown Junction. Here crossed the companies which settled Ohio under the northwest ordinance of 1786, building sleds to cross the backbone in winter and scow down the Youghiogheny not far from Washington's battlefield of Great Meadows. In these half accessible hills he began the seven years' war which made Prussia the power it became in Europe. Today there are 60,000 people in Johnstown, 600,000 people at Fort Pitt, and a great new Pennsylvania in West Virginia. Railroad building has a new impetus to straighten the coal hauls. Lake Erie has become the main objective place to ship Pennsylvania coal to Canada and the northwest. From Pittsburg under such men as T. Scott, Thaw, McCree and Cassatt have come the corporate thrall put upon the richest state in the union in natural endowments. The Baltimore & Ohio Railroad has the best route to Pittsburg, up Will's Creek to the short divide from the Ohio sources.

George Alfred Townsend.

The
PENNSYLVANIA RAILROAD
WANTS YOUNG MEN

The fall term of the PENNSYLVANIA RAILROAD SCHOOL OF TELEGRAPHY, at Bedford, Pa., opens second week in September, and at the present time can take a limited number of students in the school.

The Pennsylvania Railroad School of Telegraphy has 150 Graduates in Salaried Positions Now in the Railroad Service, and the demand is greater than the supply for properly trained young men—Strong Morally, Mentally and Physically.

This is a splendid opportunity for young men between the ages of 17 and 25 to fit themselves in the theory and practice of Railway Telegraphy and Business, to fill the increasing vacancies in railway service.

The school is modern in every respect, and is thoroughly equipped with the latest devices, including a Miniature Railroad, necessary to master the courses; has experienced teachers, and furnishes a high order of instruction. It is expected that students will graduate in from six to eight months.

The Terms are: Entrance fee \$1.00; Tuition \$2.00 per month.

Good board can be secured for \$3.50 per week up.

For full particulars address

A New Delight— Foods Shot from Guns

There are myriads of homes where these foods are not new—these delicious Puffed Wheat and Puffed Rice.

The people who know them are already serving seventeen million dishes per month.

But to millions of others these foods remain a new and unknown delight. And to those this appeal is addressed.

The appeal is to try one package—just for the children's sake.

Serve it tomorrow morning. Listen to what they say. Then ask them what food they want next.

Wheat and rice are common foods, prepared in numerous ways. See if this way is best.

We make all sorts of cereal foods, so it matters little to us which kind you prefer.

But it means much to you to get the food that you like best. See if Puffed Wheat is that food.

Puffed Wheat—10c Puffed Rice—15c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

One package will tell you why people delight in them. Order it now.

Made only by The Quaker Oats Company

PONT DU GARD.

An Ancient Concrete Bridge in the South of France.

In the south of France is a concrete arch bridge known as the Pont du Gard, which was erected in the year 56 B. C. The concrete in this was not composed of crushed stone or other small aggregate of the variety now employed in concrete bridge work, but was of the old style, consisting of alternate layers of large and small stones, gravel, etc., and of cementitious materials. Vitruvius describes the materials and methods in use before the Christian era, and other writers like Alberti in 1845 and Polidoro in 1570 accurately describe the method which "the ancients" (as they call them) employed "of using boards laid on edge and filling the space between with cement and all sorts of small and large stones mingled together."

It is very improbable that the Pont du Gard would have withstood the rigors of climate of the northern United States, but its actual state of preservation, as well as that of many other specimens of ancient concrete work, proves that if modern work is honestly executed it will many times outlast any reasonable bond period, so that a very small yearly sinking fund per cent is all that is required for properly designed and erected concrete work.—Cement Age.

Concerning Two Sounds.

When Joseph Henry Lumpkin was chief justice of Georgia a case was brought up from Columbus in which a wealthy citizen asked for an injunction to prevent the construction of a planing mill across the street very near his palatial residence. His grounds for complaint consisted chiefly in the proposition that the noise of the mill would wake him too early in the morning.

"Let the mill be built," said the chief justice in rendering his decision. "Let its wheels be put in motion. The progress of machinery must not be stopped to suit the whims or the fears of any man. Complainant's fears are imaginary. The sound of the machinery will not be a nuisance. On the contrary, it will prove a lullaby. Indeed, I know of but two sounds in all nature that a man cannot become reconciled to, and they are the braying of an ass and the tongue of a scolding woman."—Atlanta Constitution

Poulticed With Mud.

A noted explorer recently returned from central Africa tells of a unique method employed by his companions and himself to alleviate the dreadful agony of prolonged thirst. In parts of the dark continent there are great stretches of country where no water fit to drink is to be found, although there are here and there pools of thick, stagnant mud. In such country the party wandered for five days without water and might have perished but for an idea that occurred to their leader. Following his advice and example, they collected the stagnant mud wherever it was to be found and made it into long poultices, which they fastened round their bodies next the skin. This simple process they found to give great relief.—London Answers.

Insurance From Italy.

Insurance came from mediaeval Italy. It is believed to date from the sixteenth century, and at that time it was known in Florence. The Romans did not know insurance. The nearest they came to it was the practice of a company supplying the army to require a guarantee from the state against the loss of ships. But this was soon abandoned, because damages had been collected for sunken ships too worthless to float.

On Wednesday, August 18, at the home of the bride, Rev. Charles Rinehart united in marriage Albert E. Clark of West Providence and Miss Mary E. Wigfield of Monroe Township.

Heat Conductors.

Some substances conduct heat more freely than others, silver among the metals being the best conductor, and as a unit of measurement is taken at 1,000. Compared with silver as a conductor, gold is 981, copper 845, zinc 641, tin 422, steel 307 and wrought iron 436. Glass, wood, gases, liquids and resinous substances are bad conductors. Water is such a poor conductor that if heat is applied to the top it will boil at the top, while the bottom will remain cold.

Reformed Spelling.

A commercial traveler tells us of an interesting notice exhibited in the window of a small shop in the west of England. It ran:

ONE GONE ONE G A POTT.

To upholders of the new orthography this should be interesting. It refers to home grown honey and its price.—London News.

A Candid Retrospect.

"Why are you in this prison, my friend?" asked the philanthropist.

"It was the result of my own folly."

"In what way were you foolish?"

"I didn't employ the right kind of a lawyer for my case."—Washington Star.

WALNUT GROVE CAMP

Successful Meetings Closed—Misuse of Roads.

The Walnut Grove campmeeting closed Sunday evening. The attendance was not so large because of the weather but it was the best camp ever held in many respects. There was good order, many conversions and much money was raised. C. S. Nonemaker conducted the music and praise service; Miss L. A. Forney, assisted by Miss Becker, conducted the Children's service, Rev. H. L. Banzhoff had charge of the evangelistic services and Miss Bertha Locke was the organist. Jackson Holsinger, the boy preacher, and the Nonemaker children added much to the interest of the meeting.

A misunderstanding in regard to the roads leading into the campground caused some confusion. The camp was started a distance from any public road. It purchased its right-of-way to certain other roads or rights of way and these have been used until the public thought they were public highways. The public has been notified that there are no paths, lanes, roads, by-ways or rights of ways running through the campground. The ground is private and hereafter all are asked to so treat it. The committee having charge has no desire to deprive the public of any right but it is bound to protect the property committed to its trust, and in doing this they find it necessary to keep the grounds as any individual would keep his own property. All roads, paths, and such like are a danger to a campground, as they make it a common loafing place.

Has a Circulation of 33,000

The Cortright Metal Shingle Advocate is booming. Its circulation Manager reports that with the August issue the circulation goes to a grand total of 33,000. The book is beautifully illustrated and contains reading matter of timely interest to every one interested in good roofing. If you are not already reading the Advocate, we would advise your sending your name (a postal will do) to the Cortright Metal Roofing Co., 60 N. 23rd Street, Philadelphia, Pa., and they will place your name at once upon their mailing list and you will without expense or obligation of any kind on your part receive the book regularly.

Fruit Growers Meeting

The August meeting of the Bedford County Fruit Growers' Association will be held in the Court House Saturday, the 28th, at 2 p. m. A secretary is to be elected to fill the unexpired term of R. F. Lee, our worthy secretary, who has moved to Somerset. There will be some important business transacted previous to the convention to be held some time in December.

Subject for discussion: "Advantage of Packing Fruit Properly for Profit." Open for discussion.

In buildings, equipment and reputation, the Lock Haven State Normal School is the equal of the best. Its graduates are its best advertisement. To those who are thinking of becoming teachers, it is an ideal school. The fall term begins September 6th. Send for a copy of its catalog.

King

August 17—Rev. J. W. Zehring delivered a very appropriate sermon in the Shaffer school house last Sunday evening. There was a large attendance considering the inclemency of the weather.

Miss Daisy Beegle of Martinsburg is visiting at F. B. Colebaugh's.

Quite a number of our people attended the picnic at Imier last Saturday.

Harry A. Shaffer has taken the Great Atlantic and Pacific Tea Co.'s wagon route, formerly driven by Calvin Thompson of St. Clairsville.

The people of this community had the opportunity to shake hands with their friend, Harry M. Shaffer, of Newtown, Bucks County, last week. Mr. Shaffer, who was formerly of this place, moved to his present home last spring. We are glad to note his success in his eastern abode.

A merry crowd of 22 of our young people enjoyed a ride on a hay-wagon to Pine Grove to camp meeting last Saturday night. The party was conveyed by Warren Moses, returning home at the small hour of three in the morning.

The Imier Boys challenged our King "Farmers" for a game of baseball last Saturday. We accepted their challenge, and to their astonishment the score turned out 9 to 14 in favor of our "Farmers." Amid all the cheers from King rooters and our "Farmers" winning the game, the Imier Boys claimed the umpire gave them injustice. The old adage, "A poor excuse is better than none" seemed to be fulfilled. "Boys" when you want a game let us know.

New Paris

August 18—Lawrence and Miss Elva Wendell, of Windber, are visitors in our village.

J. E. Evans, wife and daughter, of Bedford, were guests in our vicinity on Saturday and Sunday.

S. G. Fetterman, wife, son and two daughters, of Johnstown, were entertained during the past week by Mr. and Mrs. W. J. Shoenthal.

J. H. Buterbaugh and family, of Love Joy, and Mrs. Laura Rodgers of Scalp Level were guests in our community during the past week.

S. R. Blackburn and wife and Mrs. Smith, of Windber, and Miss Smith of Maine are stopping with the parents of the former, Mr. and Mrs. T. K. Blackburn.

R. D. Murphy of Rummell and also of Juniata College gave an interesting and encouraging talk on Sunday School work in the German Baptist Church Saturday evening.

Miss Muriel McConnell of Kittanning and Miss Olive Turney of Pittsburgh, artists, are making sketches of our town and vicinity, having their headquarters at the home of G. M. McMillen.

Imiertown

August 18—The picnic held by the Reformed Sunday School was largely attended. A game of ball was played between the Imiertown team and the farmers, the score being 9-23 in favor of the team.

Jacob E. Stickler and Lloyd H. Imier, of Meyersdale, are visiting at this place.

Quite a number of our people attended the Pleasant Valley festival Saturday night.

Job Imier attended the Odd Fellows' reunion at Hyndman last Thursday.

Miss Ethel Deffenbaugh and Mrs. Henry Reighard, of Bedford, were in this place Saturday.

O. R. W. Dively and wife spent this week in Philadelphia and Atlantic City.

New Cent a Medal

It is difficult to understand why the change in the design of the one-cent piece was ordered. The head of the American Indian really meant something. It had the prestige of age. It carried the story of the early days of the country, when settlers had to fight for their homes. There was no demand for a change. It is utterly without excuse. The nation venerates Lincoln, but it will strike most persons, we should think, as a pretty poor tribute to him that out of all our coins we have selected the picaresque cent-piece to carry his head. The coin, as it has made its appearance from the mint, does not look like a coin at all. It resembles a medal, and a measly-looking little medal at that—the cheap little medal that is used to be given away with bags of popcorn.—Philadelphia Inquirer.

Dunning's Creek Reformed Charge

St. Paul's: Sunday School Rally 9 a. m.; worship 10 a. m. St. Luke's: Sunday School 1 p. m.; Harvest Home service 2 p. m. Pleasant Hill: Sunday School 2:30 p. m. A cordial welcome awaits you at all these services.

E. A. G. Hermann, Pastor.

St. Clairsville Reformed Charge

Pleasantville: Preaching 10:30. St. Clairsville: Sunday School 1; preaching 2:15; Missionary service 7:45 p. m.

J. W. Zehring, Pastor.

Mann's Choice

August 18—Our town is still adding improvements. We note George C. Crissey's sale stable has a new coat of paint; Mrs. L. W. Gernand has begun a cement pavement, which will add about 300 feet of new walk to our little village; the council is unloading a car of paving brick which will lay quite a string of walk.

Our hardware merchant, C. L. Holler, is improving from his broken arm. The accident happened while out driving some days ago.

Our printer, Charles M. Berkheimer, has returned from a week's vacation in the Smoky City.

Mrs. Elmer Bruner is paying her mother, Mrs. Kinton, a visit.

Miss Frank Black of Philadelphia may be seen upon our streets; we are always glad to see Frank.

Mrs. Garman of Cumberland returned home Monday night, after spending two weeks here with her mother, Mrs. Gernand.

Our big liveryman, George Lehman, took in Bedford Springs Tuesday afternoon. In the bowling alley he left his score 239, which is hard to beat.

Ed. Garman of Pittsburgh spent a few days in our town recently.

We are sorry to note the sickness of little Joseph Hartman of Altoona who came here a few days ago, accompanied by his mother, Bessie Cook Hartman. His father arrived yesterday noon and the little boy was taken to the Altoona Hospital on the 4:30 train to be operated upon for appendicitis.

Our merchant, John P. Cuppett, after 13 years of successful business has sold his merchandise to John A. Huffer and Son. We wish them success in their new work.

The Sulphur Springs Charge of the Reformed Church will hold their annual picnic at White Sulphur Springs on Saturday, August 28. You are invited; come and bring your families and enjoy a day in the woods.

Clearville

August 17—D. A. Trail is carrying the mail on Route 1 while the regular carrier, S. R. Miller, is off on a 15 days' vacation.

Miss Mary Smith of Buffalo Mills is visiting friends in Clearville and vicinity.

Miss Minnie Morse of Altoona is spending some time at her home near Pine Ridge.

Mr. and Mrs. Harvey Darr and little daughter Alverta, of Everett, are visiting relatives here.

Mr. and Mrs. Barton Jay and Mrs. Conda Jay spent last Friday night at Charles Logue's.

Mr. and Mrs. Frank Koontz and daughters, Bessie and Vera, are visiting friends and relatives at Clearville.

Rev. Charles Rinehart will preach his farewell sermon at Rock Hill next Friday night.

Conda Shaw has his new house up and roofed.

The Rock Hill Sabbath School will hold an all-day picnic in Williams' Grove on September 4. Everybody welcome. Come and enjoy the day.

Mr. and Mrs. J. R. Shaw expect to leave for Lakemont today, where they will visit their son Charles.

At a meeting of the directors of Monroe Township school district Saturday last the following teachers were elected for the coming term: Clearville Advanced, Miss Amanda C. Barkman; Primary, Miss Effie M. Cooper; McGee, Miss Mary E. Stiffer; Robinsonville, Guy Elbin; Point Pleasant, Miss Ada Clabaugh; Pine Grove, Roy Hockenberry; Clover Grove, Miss Sarah Andrews; Oak Grove, Miss Bertha J. Weimer; Emerson, Miss Estella M. Barkman; Weimer, Miss Flossie B. Pennell; Snyder, Miss Elva Mills; Stevans, Mrs. Gussie Andrews; Barkman, Walter Fisher; Ward, Miss Emma Morse; Black Oak, Elmer E. Jay; Fletcher, Norman W. Cooper; Maple Grove, Cheska O. Bollman; Summit, Frank Weimer. The schools will begin on the second Monday of September.

Fishertown

August 20—Jason Blackburn is spending a few days at Sulphur Springs for his health. He has just recovered from a severe attack of pleurisy.

Watson Moore of the Cove has been spending a few days with friends at this place. He was accompanied by his brother Howard of Alum Bank.

Miss Jessie Meyers and Miss Bessie Claycomb attended the picnic held at Imier on Saturday.

The company owning the boat on Dunning's Creek has been making very good use of it by fishing. They can sail over six inches of water with it.

Stanley Wolfe spent Saturday and Sunday at Windber.

Harry Shaffer and Ross Shipley, of New Buena Vista, spent Saturday at C. E. Hillegass' hunting ground hogs.

Nathan Wolfe and family attended the picnic at Bethel on Saturday.

Charity.

Gazette job room turns out up-to-date work.

Schellsburg

August 18—C. G. Schell of Pittsburgh is visiting home folks.

Henry Muller and family and Margery Harmer, of Pittsburgh, are visiting Mrs. Muller's aunts, the Misses Ealy.

The Reformed Sunday School held a picnic along Dunning's Creek near Cessna on Saturday.

Mr. and Mrs. J. Hissong, of Point, spent Saturday with A. Culp and family.

Mrs. Sams of Mann's Choice, Mrs. Stuckey of Napier and Mrs. Miller of Nebraska visited Mrs. Lyle Egolf last Saturday.

S. R. Mansfield and Mrs. Tomkins of Johnstown, are stopping at the hotel a few days.

Mrs. E. L. Smith and daughters and Miss Mary Reeve are spending a short time at Mt. Lake Park.

Rev. C. E. Kellar of Roaring Spring is spending his vacation here. Humphrey Claycomb and family, of Johnstown, spent a day or two with W. H. Beaver and family recently.

Charles W. Appleman of Indianapolis, Ind., is the guest of his father-in-law, Dr. T. F. Ealy.

Nathan Gumbert of Valparaiso and Paul Gumbert of Pittsburgh are the guests of their parents here.

Mrs. Fred J. Rock of New Paris and Mrs. S. C. Bowden of Windber were calling on friends last Saturday.

Mrs. C. L. Van Ormer and son have returned home from a visit with her mother at Bard.

Miss Pearl Elliot of Mt. Savage is visiting her cousin, Miss Doris Culp.

Our town was well represented at the Osterburg picnic this week.

We had several fine showers of rain recently which freshened vegetation and made the ground in condition for the farmers to plow.

Miss Mary Way of Fishertown is visiting at Dr. E. L. Smith's.

Riddlesburg

August 19—Miss Edith Batzell and Miss Chrissie Smith have returned home from a visit to Johnstown.

Mrs. W. A. Chestnut of Houston, Fulton County, is visiting at the home of her daughter, Mrs. Elliott Smith.

Miss Edna Lauder, who was visiting relatives and friends in Michigan, returned home recently.

Mrs. Wallace Paul and children, and Mrs. Fred Mattingly, of Johnstown, are visiting at the home of their parents, Mr. and Mrs. Daniel Batzell.

Dr. A. H. King was a business visitor in Huntingdon a day this week.

Mr. and Mrs. J. Fred Gage spent Wednesday of this week at the home of the latter's parents, Mr. and Mrs. William Lauder.

H. H. Adams and family, who had been camping here during the past three months, returned to their home at New York on Monday, accompanied by Miss Virginia Shaw of this place.

Miss Margaret Keife of Huntingdon is visiting relatives and friends in our town.

Mr. and Mrs. William Figard, Jr., and Mr. and Mrs. Daniel Fleck spent Sunday at the Walnut Grove campmeeting.

Miss M. A. Johnson left on Wednesday for Gary, Ind., where she will spend some time with friends.

A. C. Householder of West Virginia is visiting friends at this place.

The festival which was held in the K. G. E. Hall on Saturday for the benefit of the band was largely attended.

Mrs. R. A. Householder, who has been visiting friends at Hummel, Huntingdon County, returned home on Monday.

Miss Anna Lundquest spent Tuesday in Saxton.

A number of our young people are attending the picnic at Osterburg this week.

Defiance

August 18—Postal cards from Atlantic City tell us that Misses Anna Little, Bertha and Stella Mobus, of Defiance, are enjoying the sea breezes immensely and having a general good time.

The school directors met at Defiance last week and filled the following vacancies: Defiance Grammar school, D. P. Hoover, Rhinard, Miss Bernice Shuss; Cypher, Miss Estella Weisel; Round Knob, Miss Adda Workman.

James L. Tenley, J. P., is home from Franklin County, where he had been circulating among friends and relatives.

We are sorry to report that Mrs. Emma Collins is no better, but it is hoped that she may soon recover.

H. C. Thomas is assisting Supt. Brumbaugh in making general repairs to the school properties of the district.

The following named persons visited at the home of Mr. and Mrs. H. H. Brumbaugh last Saturday night and Sunday: Mrs. C. W. Fox and two sons, Norman and Emory, Mrs. Mary Biddle, Mrs. Flora J. Dexter and Miss Pearl Adams, of Roaring Spring, and Miss Elizabeth Mohr and Rollo Mohr, of Pittsburgh.

The first and final account of Irvin Weiner and Edward Wolford, executors of the last will of Daniel Wolford, late of Harrison.

Governors of Pennsylvania

WILLIAM FREAME JOHNSTON—1848-1852.

At the time of Governor Shunk's death William Freame Johnston was presiding officer of the senate. Under the provisions of the constitution he at once became the chief executive of the state. Wielding this opportunity to step into the office of governor, he at once issued a proclamation for the election of a governor and was himself chosen. He was born in 1808 in Greensburg of Scotch-Irish parentage and was admitted to the bar when twenty-one years of age. He represented Armstrong county in the legislature from 1836 to 1841 and was elected to the state senate in 1847. Upon the expiration of his term as governor he became president of the Allegheny Valley railroad. He was appointed collector of the port of Philadelphia by President Johnson, but by reason of differences between the president and members of the senate his appointment was not approved. He died at Pittsburgh Oct. 25, 1872.

FRANCIS RAWN SHUNK—1845-1848.

Francis Rawn Shunk, the grandson of a Palatine immigrant, had little education, but he devoted his spare time to his books and when a mere boy of fifteen became a schoolteacher. He followed this avocation for nine years, employing his summer vacations in doing farm work, devoting his evenings to study. He was appointed a clerk in the surveyor general's office, and it was here that he made the acquaintance of young David Porter, afterward governor. A warm friendship sprang up between the two young men. They studied law together. Mr. Shunk was admitted to the bar in September, 1816. Later he became a clerk in the house of representatives and afterward was promoted to the chief clerkship. Governor Porter appointed him secretary of state in 1839. He was elected governor in 1845 and was re-elected in 1847. Owing to ill health he was obliged to resign his office July 9, 1848, and he died at Harrisburg three weeks after his resignation.

PAINT YOUR HOUSE WITH PAINT

But study the paint question first. Let us advise you to use an absolutely reliable paint that the manufacturer stands back of. It costs less in the end, because you don't have to order the job repeated so soon.

justly famous Mixed Paint, because for years it has proven its lasting qualities and brilliancy of finish. You cannot buy better paint insurance for your home.

THE SUNDAY SCHOOL.

Lesson VIII.—Third Quarter,
For Aug. 22, 1909.

THE INTERNATIONAL SERIES.

Text of the Lesson, Acts xix, 23-41.
Memory Verses, 26—Golden Text, II
Cor. xii, 9—Commentary Prepared by
Rev. D. M. Stearns.

[Copyright, 1909, by American Press Association.]

It was Paul's thought, if it should prove to be the will of God, to visit the places in Europe where he had been on his previous tour and then return to Jerusalem, hoping at some time to see Rome also. Meantime he sent Timothy and Erastus, two of his ministers, into Macedonia, while he tarried in Asia for a season (verses 21, 22). Remembering what we wrote in the last lesson of the little that is said of some disciples, we might easily forget that Timothy was one of the company were it not for an occasional reference to him. This is our first introduction to Erastus, of whom we read elsewhere in Rom. xvi, 23; II Tim. iv, 20. It may not seem like saying much for them to say that they ministered unto Paul, but for some years it was all that could be said of Elissa with regard to Elijah, "He ministered unto him" (I Kings xix, 21), and in doing this they as truly ministered to the Lord as those who ministered to Him personally when He was here on earth (Matt. x, 42). It is impossible to minister to the Lord sincerely without exciting the enmity of him who even dared to ask the Lord Jesus to worship him (Matt. iv, 9). He is the god of this world and may also be called the religious leader, for the vast majority of religious people worship him, perhaps unconsciously. No one can draw near to or worship the one only living and true God except by Jesus Christ, the Son of God, and by virtue of His atonement for sin, His great vicarious sacrifice.

That which is not the worship of God is the worship of the devil (I Cor. x, 20), whether it be the worship of Diana or Jupiter or Buddha or Mohammed or the professed worship of a God who saves people because they try to do right and to follow a Jesus who is not God and never suffered as a sacrifice for our sins. Like the men in chapter xvi who caused the persecution of Paul and Silas because their demon possessed slave was healed, and thus further hope of gain through her was gone, Demetrius and his craftsmen caused a riot at Ephesus because the sale of silver shrines for Diana was falling off through the preaching of the truth concerning the Lord Jesus Christ. Their cry that, not alone at Ephesus, but almost through all Asia, Paul had turned away much people from the worship of Diana was splendid testimony to the work of the Spirit through Paul, but that was not the aim of Demetrius. The testimony was like that of the Jewish rulers in Acts v, 28, "Behold, ye have filled Jerusalem with your doctrine." Where is there such zeal today, such spirit filled men?

The cry of the opposition was: "Our craft is in danger. . . . By this craft we have our wealth" (verses 25, 27). What is the difference between that and the cry of the unrighteous rulers in many cities today who by oppression and theft have their wealth and yet have power enough somehow to cover up their misdeeds and to escape punishment, but who are ready to raise a great outcry against any who would attempt to put their iniquitous craft in danger? As to the condition of a multitude of churches, with their new theology dishonoring God and Christ and His word and filling the church with all manner of worldliness, what can we say but "How long, O Lord, how long," canst Thou suffer it? When teachers in our Sunday schools and even some preachers enjoy the Sunday newspapers, light reading of any kind, the theater, and such like, and consider those who renounce these things as only babes and undeveloped, and the cry from all sides is "Great is our Diana, whom all the world worshipeth!" can those who would be out and out for Christ lay to heart the advice of the town clerk of the city of Ephesus and "be quiet and do nothing rashly?" (Verse 36.) Yes, truly, for, though the heathen in heathendom and Christendom rage as they please and shout themselves hoarse in honor of their gods, we may well be quiet, knowing that "our Jehovah is above all gods and whatsoever He pleases He will do" (Isa. xlviii, 5, 6). Jesus of Nazareth shall reign as King of kings and Lord of lords, and the kingdoms of this world shall become wholly His. Let us not be afraid, but speak boldly His word for He is well able to take care of us and of all that concerns His kingdom.

Ephesus was filled with confusion, and the assembly was confused, and some cried one thing and some another, and the greater number knew not why they were come together (verses 29, 32). What a picture of the world lying in the wicked one! "God is not the author of confusion, but of peace" (I Cor. xiv, 33). Where envy and strife are there are confusion and every evil work, but that wisdom is not from above, but is earthly, sensual, devilish (Jas. iii, 15, 16). In verse 29 we are introduced to two more of Paul's companions with whom we can talk more fully and freely in the kingdom of all the events of that day if it shall then seem worth while, but all suffering here for His sake shall seem so small then that many things we now feel like desiring to know more about will not then seem worth a thought.

THE STANDARD OF THE WORLD

THE NEW ORE.

One of Andrew Carnegie's Early Iron Experiences.

Andrew Carnegie once stated that a short time after the starting of his first plant in Pittsburgh he had an odd experience with iron ore. "I was offered some ore that sampled about the usual grade, so far as I was able to judge from appearances, at a reduced price," he said. "I bought several thousand tons—a big order for those days. The second day after we commenced to run it the foreman came to the office and told me the new ore was of no account, that it did not flow and that the furnaces were so choked they would have to be dumped unless some remedy was found. Those fires were built to last two years, and to dump them at this time would mean so heavy a loss as to practically put me out of business. A young chemist had called on me a few weeks before, and while I had not paid much attention to him, I had kept his card. It occurred to me that he might possibly be of some help, though I confess I did not then see what chemistry had to do with the iron business. 'But I sent for him, and he came at once. First he examined the new ore and then the old that we had been running without difficulty, and finally he looked at the furnaces. To avoid delay he made a little test of the two ores right there. I had told him when he arrived that I felt sure the new ore was worthless and admitted my mistake in buying it. Of course I did this as I did not want him to think I was ignorant of the business. You can imagine my surprise, then, when at the conclusion of his test he quietly informed us that the new ore was so good we did not know how to run it. The fact was that the new ore contained 20 per cent more iron than the old, and all that was necessary to do was to add a proportionate increase of flux to bring about reduction.'—American Industries.

The kidneys eliminate poisons by acting as filters for the blood. When they fail in this respect serious ailments must result. Pimples for the kidneys are what you should take at the first warning sign of kidney trouble. They assist the kidneys in expelling uric acid poison. Sold by Ed. D. Heckerman.

His Unlucky Day.

"I tell you what it is," said an old cynic—"I am firmly convinced that every man has his particular days for good and bad luck. Monday is my unlucky day. I have been watching it for twenty years, and nothing can shake me in this belief. I never began any enterprise, no matter how trivial, or start on any journey on that day. Therefore I make Monday an off day and do nothing but potter round the house. Even in these little affairs everything goes wrong.

"Take the record of last Monday, a fair average, and be convinced: Smash ed finger while nailing board on fence. Fell down cellar stairs with coal scut tie. Fell over wheelbarrow while carrying step-ladder. Sat down on chair where children had been sucking foot. Got swindled by peddler. Got thumb pinched in gate. Dropped smoothing iron on foot. Baby got out in yard and was bitten by strange goat. Tax man called. While eating supper square yard of ceiling fell on dining table. Went to bed to escape further disaster. Had nightmare. Thought I was falling from top of Eiffel tower. Fell out of bed and broke arm. Looked at clock and saw it lacked fifteen minutes of midnight. Lay still till clock struck 12. Was afraid if I moved before Tuesday was ushered in would have broken neck. Yes, indeed," concluded the man "Monday is my unlucky day, and I agree with it with feelings akin to 'er nor.' London Tit Bits.

The best remedy we know of in all cases of Kidney and Bladder trouble and the one we always can recommend, is DeWitt's Kidney and Bladder Pills. They are antiseptic and at once assist the kidneys to perform their important work. But when you ask for these pills be positive that you get DeWitt's Kidney and Bladder Pills. There are imitations placed upon sale to deceive you. Get DeWitt's. Insist upon them, and if your dealer cannot supply you—refuse anything else in place of them. Sold by all druggists.

The proper way and method of treating a cough or cold is to first of all gently move the bowels. This you can most conveniently do by taking a dose or two of Bees Laxative Cough Syrup. It is pleasant to take, acts promptly. Children like it. Sold by Ed. D. Heckerman.

VOGUE POINTS.

Fashions Suddenly Leap From One
Extreme to Another.

We have just accustomed ourselves to the graceful high waist line and the scanty draperies of the empire skirt when along comes the news that we are to be buttoned into old fashioned basques with fringe around the edge and tails in the back.

It seems to take a year or two prophesying the advent of a new style and only a few months in which to enjoy it when it does arrive.

Basques and panniers, tunics and draperies of a cumbersome variety may become the vogue, but it would take a stout hearted prophet to predict the return of the old fashioned boned waist. Women who have learned the comfort of the unlined dress will never be induced to go back to the old fashioned tightly boned and fitted linings.

This simple little frock for the wee tots is always desirable. The skirt and body portions are cut in one, but there are extensions at the center back

FOR SMALL CHILDREN.

and under the arm seam's edge below the belt line, which are underlaid to form inverted plaits and provide fullness.

JUDIC CHOLLET.

This May Manton pattern is cut in sizes for children from two to eight years of age. Send 10 cents to this office, giving number 6838, and it will be promptly forwarded to you by mail. It is haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

MIDSUMMER MODES.

Fashions That the Advancing Days of
the Season Are Producing.

As the season advances a good many novelties are cropping out. One of them is the stole used with wool or linen gowns, which goes around the skirt and not only falls at the front in its usual fashion, but goes all around the skirt like a band, the skirt invariably falling in plaits below it.

The princess tunic, or cuirass, has developed into many far fetched phases since it first took the fashion by storm last spring. In many of the summer costumes with the Moya age expression this cuirass is of net the shade of the gown material.

In the shops there are dear little beaded purses in white and pale blue, nicely mounted, and are only 50 cents apiece. They are just the thing for summer use for slipping into hand bag or indeed for carrying in the hand, for they do not get heated, as leather does.

The blouse made with an embroidered yoke is the prettiest that a woman

TUCKED BLOUSE WITH BOUND YOKES.

can wear, and as the embroidery only means an agreeable employment for leisure hours, it is easily obtained. The waist illustrated can be joined to a separate skirt, in this way making an entire costume.

JUDIC CHOLLET.

These May Manton patterns are out for the blouse in size from 34 to 42 inches bust measure, No. 638. Embroidery pattern, 448, is in one size only. Send 10 cents each for the patterns to this office, and they will be promptly forwarded to you by mail. If in haste send an additional 2 cents for letter postage, which insures more prompt delivery.

TAKE NOTICE

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. Ed. D. Heckerman.

THE THRICE-A-WEEK WORLD

Always Tells the News as it is,
Promptly and Fully.

It has invariably been the great effort of the Thrice-a-Week edition of the New York World to publish the news impartially in order that it may be an accurate reporter of what has happened. It tells the truth, irrespective of party, and for that reason it has achieved a position with the public unique among papers of its class.

If you want the news as it really is, subscribe to the Thrice-a-Week edition of the New York World, which comes to you every other day except Sunday, and is thus practically a daily at the price of a weekly.

The Thrice-a-Week World's regular subscription price is only \$1 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Bedford Gazette together for one year for \$2.20. The regular subscription price of the two papers is \$2.50.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

Take Kodol at the times when you feel what you have eaten is not digesting. Kodol digests what you eat so you can eat sufficiently of any good, wholesome food, if you will just let Kodol digest it. Sold by all druggists.

PERSONAL NOTES

(Continued From First Page.)

Mr. Harry Corle left on Monday to join his family at Canton, O.

Mr. and Mrs. W. F. Berkheimer, of near Cessna, were Bedford visitors yesterday.

Mr. and Mrs. James Cook and Miss Alice Shoemaker, of Toledo, O., are guests at the home of Mrs. Mary J. Corle, 218 East Pitt Street.

Mr. R. F. Smith of Frederick, Md., spent Wednesday at this place. He will visit in Cumberland Valley and Rainsburg among relatives.

Messrs. Henry Holtzman of Cumberland and Edward Donahoe of Bean's Cove were transacting business in town on Wednesday.

Miss Eleanor M. Hall has returned to her home here after spending some time with her friend, Miss Leila Reed, at Mt. Airy, Philadelphia.

Mrs. Peterson, Mrs. Owen Edwards and son, and Miss Alice Leo, of Windber, were guests of Bedford relatives several days this week.

Miss Frances Burnett of Philadelphia will arrive here tomorrow to spend some time with her uncle and aunt, Mr. and Mrs. H. C. Robison.

Messrs. N. G. Wentz of Ryt, I. L. and L. L. Snyder, of Maria; J. B. Hoover and son, of New Enterprise, were Saturday callers at this office.

Mrs. Wesley Brumbaugh and daughter, Miss Bessie, of Altoona, were guests over Sunday of Mr. J. E. Evans and family at Hotel Waverly.

Miss Lavenia Otto of Germantown is the guest of her brothers, Messrs. A. J. and Calvin Otto, at this place, and relatives at Schellsburg.

Miss Christine Smith of Bangor, Pa., and Mr. Draper Smith of Portsmouth, Va., are paying a visit to their sister, Mrs. H. E. Miller, East Penn Street.

Rev. J. Walter Shearer and wife, of Connellsville, were called to Rainsburg by the death of Mr. G. W. Shearer, spending part of Wednesday at this place.

Mr. and Mrs. Ralph Longenecker and two children, of Pittsburgh, are spending some time at this place with Hon. and Mrs. J. H. Longenecker, the former's parents.

Mr. and Mrs. Albert Seifert and son John, of Hazelwood, arrived here last Sunday on a visit to Mrs. Seifert's mother, Mrs. Margaret Diehl, East Penn Street.

After spending several weeks with Mrs. S. S. Claar and family, Mrs. Eliza O'Shea and daughter, Miss Margaret, returned last Saturday to their home in Sheraden.

Mr. and Mrs. Nicholas Mantler and daughter Hazel, of this place, and Misses Thalheimer and Debring, of Baltimore, were Huntingdon visitors Saturday and Sunday.

Mr. Fred Conner of Johnstown stopped over Tuesday night in Bedford en route to New Paris to visit relatives. While here he renewed a number of old acquaintances.

Master Charles Luther of Haddonfield, N. J., is spending a few days with the Benson boys, who are visiting their grandfather, Col. James Metzger, South Richard Street.

Mr. J. W. Huff of Saxton, the Democratic candidate for Associate Judge, and Mr. J. B. Cessna of Rainsburg, the Democratic candidate for Director of the Poor, were among the week's visitors here.

Mrs. James A. Donahoe and three children, of Altoona, are guests of

her parents, Mr. and Mrs. R. V. Leo, Simpson Street. They were accompanied by Miss Emma Leo, who spent a few days in Altoona this week.

LETTER TO E. S. CASTEEL

Bedford, Pa.

Dear Sir: Suppose you are feeding pigs milk; how much will you gain by watering milk a quarter? half? three-quarters?

100 quarts whole milk they sleep
80 of milk and 20 of water they squeal
50 " 50 " more squeal
25 " 75 " still squeal
0 " 100 " no squeal

Suppose you are painting a house; how much will you gain by painting adulterated a quarter? half? three-quarters?

10 gallons Devco put-on \$50
15 " 1/4 not paint 75
20 " 1/2 " 100
40 " 3/4 " 200

The cost of paint put-on is about \$5 a gallon, no matter what paint you buy.

But nobody really gets 40 gallons on a 10-gallon job; so nobody really pays \$200 for painting a \$50 job; he stops at about \$100. Two coats of 1/4-paint-and-3/4-trash doesn't make a good job; nor three; nor four. These lessons are useful.

Yours truly

F. W. DEVCO & CO.
P. S. Metzger Hardware and House Furnishing Co. sells our paint.

Lecture at Rainsburg

There will be a lecture in the Rainsburg Lutheran Church Saturday evening, August 21, at 8:30 o'clock on the "Battle of Gettysburg," by Rev. Harry Dollman. Admission: Adults 20c; children 10c. Proceeds for the benefit of the church.

Dr. Sears will be at Bedford Wednesday, August 25, when he can be consulted on the eye, ear, nose and throat.

DIED

KNIPPLE—At Cumberland on August 15, Marshall William Knipple, aged one year. Interment at Mann's Choice on Tuesday.

Advertised Letters

The following letters have been held thirty days in the Bedford, Pa., postoffice, and if not called for within two weeks from this date will be sent to the Dead Letter Office at Washington. When asking for these letters please say, "Advertised."

John Dibert, J. C. Davis, Mrs. Minnie Diehl, Mrs. Lizzie Albright, Mrs. R. F. Hapgood, Mrs. R. E. Stevenson, Miss Fannie Shaffer, Miss Liddie McPherson; postals—Lester Williams, Chas. E. Fluke, C. A. Hensel, Miss Edith Martin, Miss Grace Amick, Miss Nellie Griffith, Miss Cleo Blackburn, Miss Lessie McPherson, Miss Fannie Shaffer 2.

John Lutz, Postmaster.

WILLIAMS GROVE PICNIC

Reduced Rates via Pennsylvania Railroad.

For the Grangers' Picnic at Williams Grove, Pa., August 30 to September 4, the Pennsylvania Railroad will sell excursion tickets to Williams Grove from stations in Pennsylvania and from Baltimore, Elmira, Frederick and intermediate stations on the Northern Central Railway, August 24 to September 3, inclusive, good to return until September 7, inclusive, at reduced rates. Aug. 20-21.

MOUNT PLEASANT INSTITUTE

Mt. Pleasant, Pa.

The Institute, after having completed one of the most successful years in its history, is prepared to enter upon its thirty-seventh year, September 15, 1909, with renewed vigor. It has an exceptionally strong force of teachers for the coming year, capable of preparing students for any College, Technical, or Musical School in the country.

The success of its graduates is its best recommendation. Aug. 20-31.

For thirty-three years the Lock Haven Normal School has been the most efficient and largest secondary school in central Pennsylvania. Its graduates are leading citizens and are doing their share of the world's work. They carry with them the high ideals of the school. It demands high scholarship of its pupils, but it also insists on right living. It is a home school and looks after the individual needs of its pupils. Its catalog is not only handsome but it mirrors the work of the school. Send for a copy.

DeWitt's CARBOLIZED WITCH HAZEL SALVE For Piles, Burns, Sores.

Initial Showing of Women's Fall Suits

An Authoritative Delineation of the New Season's Styles

Our Fall and Winter Suit Department makes its debut this season. A new department in a new dress. The same well defined policy which has carried this store forward, steadily and surely, will dominate this new departure. A policy which is expressed very fully in the following: "Quality" combined with lowness in price, quality to be the first consideration.

Our Suits for 1909 are counterparts of the garments which will share in the opening style displays of the metropolitan centres. In material, making and design they are the last word of the wizards of fashion.

The woman who wears a Barnett Suit will experience the sense of satisfaction which comes from a knowledge that one's garments are correct in every detail. We have had no precedents to tie us down. We have gone out into the garment world and brought back distinctive garments, suits that radiate with newness and womanliness.

The Price Range, \$10 to \$28, permits a clothing of one's self in chic, stylish garments no matter how modest the purse. Each suit is absolutely the best value possible at the price. Nowhere can their goodness be excelled.

Let Your New Suit Bear a Barnett Label.
The New, Snappy Fall Models Await You.

Handsome Blue, Green and Brown Suits
at \$10.

Better material and better linings
at \$12 and \$14.

Some very stylish models
at \$22.50.

If we don't have just exactly what you want in shade or material, we will be pleased to have other Suits made for you

Suits of fancy striped worsteds in all the leading shades, trimmed Skirts and Jackets, correct in every detail
at \$15 and \$19.

At \$25
beautiful black worsted Suits are shown—large buttons, velvet and braids are used on most of the Suits.

At \$26.50 and \$28

we show some very exquisite tailored Suits. Same garments in large city stores would be marked \$35.00.

We kindly ask the ladies of this vicinity not to send away for their Fall Suits until they have seen what we are showing.
